

Global Green Product Listing ecospecifier.com

Being with us you are in good company

Thousands of green design and construction professionals navigate through the **ecospecifier** .org .ae .sg and co.za websites every day, conducting materials research with rigour and making materials selection with confidence. **ecospecifier** global databases currently include over 5,000 product listing entries in over 80 industry categories and more than 540 sub-categories.

Every one of these users can research and easily find the life-cycle based information about your products and be educated on how to select and implement this knowledge in their projects.

We offer a range of other services to get your product to market

Marketing Services - offering formal documentation for inclusion in marketing and sales materials. Creating opportunities with **ecospecifier** to represent your products at expos, industry conferences and educational seminars.

Sustainability & Materials Education - offering tailored programs for executive management through to technical and sales teams that require a boost of new knowledge and inspiration. Enabling the understanding of the context of your products in today's green built environment and providing access to world renowned experience in sustainability strategy, sustainable building design, green materials, rating and other green building intelligence.

Why industry search for your products with us...

*"...The UAE **ecospecifier** site is an impressive tool as we work with projects in Dubai and other areas around the Gulf. Searching by LEED credits or a specific green product need, all backed by **ecospecifier's** extensive reviewing and verification protocols, makes this site a must for green building consultants and all those involved in green building materials in the region."*

Samual Keehn, Environment & Sustainability Manager,
Energy Management Services International, Dubai

*"The Consultant shall identify environmentally preferable materials and recommend appropriate Abu Dhabi and UAE products and materials for incorporation into the Project. Materials databases such as **ecospecifier** (www.ecospecifier.ae) can help identify these materials."*

Elham Monavari, LEED AP
John Buck International a Mubadala Company
Senior Project Manager - Sustainability

Country Green Product Listings

ecospecifier.org, .ae, .co.za, .sg

Delivering growth opportunities by...

- Exposing your eco & health preferable building products to thousands of building professionals who subscribe and access our online product database everyday.
- Leveraging our third party verification, online marketing and other services to build technical and marketing presence to help you develop your business and product credibility in a green focused building industry.

"ROCKCOTE has been involved with the ecospecifier program since the early days and have seen it grow and become one of the main resources for specifiers, builders and developers wanting to source more environmentally sustainable products for their projects. It has conservatively led to sales of at least two million dollars over the last financial year."

Bob Cameron
Managing Director
ROCKCOTE Enterprises Pty Ltd

Featuring your products on an ecospecifier country website
